An Attack by Filipinos on Mauban Discovered in Time.

THE PAPERS SEIZED.

The News from Samar Is Encouraging. Strict Censor Has Deprived Natives of Food and Surrender Is Likely to Occur.

Manila, Nov. 23.—It has been officially reported to General Chaffee that the insurgent leader Caballos has 600 fully armed men including a number of American negroes under his command in Laguna province of Luzon.

An insurgent officer was captured, carrying papers dated Mauban, Laguna province, Nov. 18, and signed by Caballos. The prisoner admits that Caballos has 1000 men with him and contemplates attacking Mauban. This probably accounts for the fact that the telegraph lines were cut near Mauban and that in several places the supporting poles were found to have been removed.

News received here from the Island of Samar is encouraging, although up to the present time there have been no wholesale surrenders of natives. The Filipinos captured there by our troops show evidences of suffering and hunger. The coasts of the island are closely patrolled by gunboats and the use of searchlights make it almost impossible for the natives to land food on the island for the insurgents.

The patrolling gunboats have captured over \$20,000 in cash and \$100,000 worth of hemp upon which a tax had been paid to the insurgents.

The system of taxation and the collection of taxes maintained by the insurgent leader Lukban was perfect and exhaustive in every particular and produced revenue from births, marriages, deaths, cockfights and from the fish of Samar. Hemp was the most important feature of commerce. Two per cent of its price was given to the local presidents who collect the majority of the island's revenue from those natives who had sworn allegiance to the United States and turned it over to the rebel authorities.

Smallpox is raging in the southern islands of the archipelago. The United States Philippine commission is preparing an act to compel everybody to be vaccinated.

TRAGEDY AT MARLIN.

Negro Kills His Wife, Attempts Suicide and Shot by a Woman.

Marlin, Tex., Nov. 23.—Joe Gibson, colored, who lived in the western part of this city, became enraged at his wife Thursday night and killed her by a most brutal way. He beat her her throat with an ax and then cut some of his nose. He called remains and then remarked to the them that he would kill himself and then pulled his knife, stepped to a mirror and caught his throat as though preparing to shave and pulled the knife across it. He then had some one to roll a cigarette for him, which he commenced to smoke and said he would soon be dead. When the officers arrested him he was bleeding profusely. The officers carried the man into the room and placed him on the floor for physicians.

While the negro was lying on the floor, and before the physician had arrived, the daughter of the dead woman appeared, drew a pistol and shot the man in the stomach, producing a trivial wound. The doctors do not consider the wound in the neck dangerous. The negro is now in jail. Gibson is an ex-state convict.

Prominent Physician Dead.

Kansas City, Nov. 23.—Dr. James P. Jackson, aged 57 years, prominent as a hospital surgeon in the service of western railroads and for 20 years a leading practitioner in this city, died at his home here. Dr. Jackson established the Missouri railroad's hospital, located at Washington, Mo. He established the Wabash and Missouri Pacific hospital service in this city, and he was consulting surgeon for the Memphis route until that road consolidated with the Frisco system.

Longshoreman Accidentally Killed.

Galveston, Nov. 23.—W. F. Johnson, a longshoreman about 30 years of age, while loading coal aboard the British steamship Montenegro, met with an accident which resulted in his death. One of the huge buckets used in conveying the coal up the ship's side in some manner came loose from the hook, and descending struck Johnson upon the head. He lived about fifteen minutes after the accident.

Robbed at a Depot.

Palestine, Tex., Nov. 23.—At the depot here Mr. Cochran, an old gentleman, was robbed of \$300 in bills by some unknown pickpocket. Mr. Cochran was a passenger from Carthage, and was alighting from the train. He was caught in a jam of people at the car door and the pickpocket ran his

hands into the trousers pocket and got the roll and hurriedly pushed his way into the crowd and escaped.

To Test Tribal Tax.

Guthrie, O. T., Nov. 23.—Because Dorset Carter of Purcell, one of the most prominent attorneys in the Chickasaw nation, refused to pay the tribal tax, he was arrested by the orders of the Indian agent. Carter sued out a writ of habeas corpus and gave \$500 to appear next Wednesday. He will make of it a test case.

TESTING A DECISION.

A Consumptive Immigrant Resorting to Law to Stay in This Country.

New York, Nov. 23.—In deciding the case of Thomas Boden, the courts will rule whether or not a man suffering from tuberculosis can be excluded from this country.

This is the first case in which the constitutionality of the treasury ruling that consumptives shall be prevented from landing as immigrants will be passed upon by the courts.

Thomas P. Boden arrived here from Ireland, Nov. 9, a steerage passenger of the Cunard line steamer, the Luccania. His wife and children were with him. He has relatives who live in Philadelphia. They were able to guarantee that he would not become a public charge, and he had means of his own.

The authorities at Ellis Island were satisfied on that score, but they declined to admit him because the examination by physicians of the marine hospital corps showed he had tuberculosis of the lungs. He appealed to the treasury department and a re-examination was ordered.

The treasury department ordered that Mr. Boden be sent back on the next Cunard line steamer, the Etruria. Then Francis Tracy Tobin, a lawyer from Philadelphia, obtained a writ of habeas corpus.

The act of congress under which it is proposed to exclude Mr. Boden is framed to prevent the admission of "persons suffering from a loathsome or dangerous disease."

Mr. Boden claims that the majority of physicians do not regard consumption as contagious.

NEED HAVE NO FEAR.

Russian Labor Is No Comparison to the Skilled Labor of America.

New York, Nov. 23.—Archer Brown, of Rogers, Brown & Co., manufacturers of pig iron and coke, with plants in half a dozen different states, says it will take 100 years development of the Russian labor to reach a plane where he will be as competent as the average American skilled labor; also that Russia as a field for the investment of American capital is unattractive at present.

Mr. Brown has just returned from a trip through part of Russia, covering a period of several months. He said: "The workmen of the United States have nothing to fear in Russian competition. Financial conditions long period of depression are almost as bad as Russian ironmasters. There has been a duce about 2,000,000 tons of iron. The it was not of good quality. The iron industry in Russia lacks two essential things to make it worthy of consideration from a worldwide point of view, namely, honest and able management and a good grade of ores. No high grades of ore have as yet been discovered in Russia. They have superior ore in China, and it is possible they will uncover some in Russia, but as yet they have none. French companies have been duly bitten by spending their money in trying to develop industrials in Russia, and I cannot see where there is any attractiveness for an American investor."

GREATEST SUGAR TRUST.

One in Germany That Absolutely Controls the Price Discovered.

London, Nov. 23.—The British sugar magnates assert that their investigations have revealed the existence in Germany of a great trust called "Kartell," which has been in existence for about one year, and that it is chiefly owing to its agency that sugar has been forced down to the lowest point in the history of the industry, and that Germany is now able to dictate to the world the price of that commodity. The exact extent of the Kartell was discovered, they say, only quite recently. The magnitude of its operation supplies missing factors in the present alarming condition of the sugar market.

The abolition of this organization will be one of the chief objects of the nations, other than Germany, attending the forthcoming Brussels conference.

Colonizing Consumptives.

Denver has organized a colony of consumptives with a view of separating the patients—for their own and the public's good—from the mass of the people. Many persons with lung troubles go to the Rockies for the sake of the dry climate, and naturally enough they have become a problem.

The Denver plan is to follow the principle that outdoor life is most beneficial to the tuberculosis patient. A 10-acre tract, five miles from town, has been selected and some 20 patients are now residing there in comfortable tents. The artificial heat of the ordinary dwelling promotes the disease, and living close to nature checks it. So far the patients have shown marked improvement.

Tuberculosis thrives on moisture and cold, but a dry, cold atmosphere affords no comfort to the microbe. There is no particular virtue in a mountainous altitude except that the air at such elevation is dryer and purer than at a lower level. Hence it is that consumptives have sought the Rockies, notwithstanding the severe winters.

Many parts of Texas are more nearly ideal for the treatment of the disease, for they afford the dry atmosphere with high temperature. Around San Antonio and from there to El Paso, especially at Fort Davis, the conditions are as nearly perfect as can be found anywhere on the globe. Actual experience has demonstrated better results in Texas than in Colorado, but it is a well known fact. It would not be too much to say that Texas and prove a blessing to the army of consumptive patients the world over if the professional and business men of this

state, especially of the western section, would make known these conditions and follow the lead of Denver in making thorough provision for care and treatment. The Denver project involves but little outlay of capital, and it would handsomely pay property owners and railroads to inaugurate a similar enterprise in southwest Texas. *Galveston Tribune.*

We are in receipt of the special edition of the Bryan Eagle, gotten out contemporarily with the holding of the Central Texas fair, at Bryan, Nov. 5, 6 and 7. This edition of the Eagle is a twelve page, six column publication, printed on a good quality of book paper, profusely illustrated with fine cuts of prominent places and persons of Bryan, well edited and tastefully made up. It does great credit to the proprietors of the Eagle, who, by the way, have achieved an enviable reputation as publishers by reason of their indefatigable energy and consistent and correct business methods. Bryan, the "Queen City of the Brazos," likewise was splendidly advertised in this special edition of the Eagle, and her business men—than whom there are none in Texas more enterprising or competent and honorable—did themselves proud. Long live Bryan and the Eagle.—*Anderson Record.*

A Thanksgiving Attraction.

Manager Mike has succeeded in booking a Thanksgiving attraction to appear at the opera house, matinee and night, Thursday, Nov. 28, and Friday night following, at popular prices, 25c, 35c and 50c. Mr. James T. Kelly is the leading man of the company presenting "A Baggage Check," which is a musical farce and said to be complete with catchy melody of 27 special tunes and has appeared with great success in comedy and comic opera throughout the country. The piece is in the hands of a good, strong company, and not the least of its pleasing features is the work of the chorus. There are a number of talented actors and a bevy of pretty women in the cast.

To Adjust Dispute.

St. Louis, Mo., No. 22.—Final award was made here to adjust the dispute between the World's Fair commission and the purchase exposition company as to which body should have the authority over foreign exhibitors, but without result, and the matter will now go to arbitration under an act of congress providing for a commission. The board of arbitration will consist of two members from the national commission and one member from the Louisiana purchase exposition company. Should they fail to come to an agreement, a fifth arbitrator will be appointed by secret ballot of the treasury.

Colonizing Consumptives.

Denver has organized a colony of consumptives with a view of separating the patients—for their own and the public's good—from the mass of the people. Many persons with lung troubles go to the Rockies for the sake of the dry climate, and naturally enough they have become a problem.

The Denver plan is to follow the principle that outdoor life is most beneficial to the tuberculosis patient. A 10-acre tract, five miles from town, has been selected and some 20 patients are now residing there in comfortable tents. The artificial heat of the ordinary dwelling promotes the disease, and living close to nature checks it. So far the patients have shown marked improvement.

Tuberculosis thrives on moisture and cold, but a dry, cold atmosphere affords no comfort to the microbe. There is no particular virtue in a mountainous altitude except that the air at such elevation is dryer and purer than at a lower level. Hence it is that consumptives have sought the Rockies, notwithstanding the severe winters.

Many parts of Texas are more nearly ideal for the treatment of the disease, for they afford the dry atmosphere with high temperature. Around San Antonio and from there to El Paso, especially at Fort Davis, the conditions are as nearly perfect as can be found anywhere on the globe. Actual experience has demonstrated better results in Texas than in Colorado, but it is not well known. It would not Texas and prove a blessing to the army of consumptive patients the world over if the professional and business men of this

state, especially of the western section, would make known these conditions and follow the lead of Denver in making thorough provision for care and treatment. The Denver project involves but little outlay of capital, and it would handsomely pay property owners and railroads to inaugurate a similar enterprise in southwest Texas.—Galveston Tribune.

We are in receipt of the special edition of the Bryan Eagle, gotten out contemporarily with the holding of the Central Texas fair, at Bryan, Nov. 5, 6 and 7. This edition of the Eagle is a twelve page, six column publication, printed on a good quality of book paper, profusely illustrated with fine cuts of prominent places and persons of Bryan, well edited and tastefully made up. It does great credit to the proprietors of the Eagle, who, by the way, have achieved an enviable reputation as publishers by reason of their indefatigable energy and consistent and correct business methods. Bryan, the "Queen City of the Brazos," likewise was splendidly advertised in this special edition of the Eagle, and her business men—than whom there are none in Texas more enterprising or competent and honorable—did themselves proud. Long live Bryan and the Eagle.—Anderson Record.

A Thanksgiving Attraction.

Manager Mike has succeeded in booking a Thanksgiving attraction to appear at the opera house, matinee and night, Thursday, Nov. 28, and Friday night following, at popular prices, 25c, 35c and 50c. Mr. James T. Kelly is the leading man of the company presenting "A Baggage Check," which is a musical farce and said to be complete with catchy melody of 27 special tunes and has appeared with great success in comedy and comic opera throughout the country. The piece is in the hands of a good, strong company, and not the least of its pleasing features is the work of the chorus. There are a number of talented actors and a bevy of pretty women in the cast.

The Tooth should have constant attention to counteract the ill effects of prepared foods. Tartar concretion on the teeth forms lacti; acid which eventually corrodes the enamel of the tooth, producing cavities.

SCENE FROM D. E. LESTER & CO.'S Immense Production At Valley Forge

By WM. L. ROBERTS

"At Valley Forge" is picturesque with military pomp, from the first curtain to the last. Soldiers of the Revolution dominate the scenes, which move swiftly in the unfolding of a pretty love story.—Minneapolis Tribune.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a man, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get all Dr. G. Green's reliable remedies at the Wilson-Jenkins Drug Co.'s store, Bryan. Get Green's Special Almanac.
